The preservation community is in regular contact with the *Emergency Operations Manager* and a preservation representative is assigned to the *Emergency Operations Center*.

Preservationists are recruited and trained to participate in risk assessment, mitigation, response and recovery, and to serve on damage assessment teams.

Local officials have been given a comprehensive survey of their community’s historic resources.

Building condition assessment forms consider the historic integrity of buildings districts.

Historic District Commissions and other regulatory review bodies have developed post-disaster procedures for design review and permitting in historic districts.

Sites selected for response personnel staging areas, temporary housing, and debris removal and storage do not impact historic or archaeological sites.

Salvage protocols for the debris removal process address the need to preserve historic features and materials.

Demolition permit criteria and procedures include evaluation by historic preservation experts.

A preservation professional is trained and available to participate in deliberations regarding post-disaster recovery activities and priorities.
