

## Sources for Three Kinds of Weights

### SEWING WEIGHTS

Source:

Clotilde Inc.  
2 Sew Smart Way-B8031  
Stevens Point, WI 54481-8031  
800-545-4002

Description:

“Wonder Weights” are small round lead weights covered with a white plastic coating. The bottoms of the weights are covered with green felt.

Cost:

6 per package @ \$8.24 each

Description:

“Shape Weights” are plastic weights with a lead(?) interior that come in 3 shapes: straight, angled and curved

Cost:

4 per package (2 straight, 1 angled, 1 curved)  
@ \$11.20 each

Use:

multi-purpose

### DIVER’S “PILLOW” WEIGHTS

Source:

any diving store

Description:

“Pillow weights” are soft rectangular weights, approximately 2” x 4”, made from lead shot and covered with Cordura nylon. Weight: 2 lbs.

Cost:

\$5.00/each (depending on supplier)

Use:

multi-purpose

### CURTAIN WEIGHTS

Source:

John Lewis  
Oxford Street  
London W1A 1EX

(or any other British department store that carries a wide range of upholstery and other sewing notions)

Description:

Continuous length of 150 g. lead “tape”, made up of small pellets of lead enclosed in a narrow tube of heavy white nylon or polyester fabric.

Cost:

£1.65 per meter

Use:

used to hold open the leaves of a bound manuscript for the purpose of examination or treatment, as seen in fig. 1. (Note: American curtain weights cannot be substituted for the British ones as they are not heavy enough to do the job.)

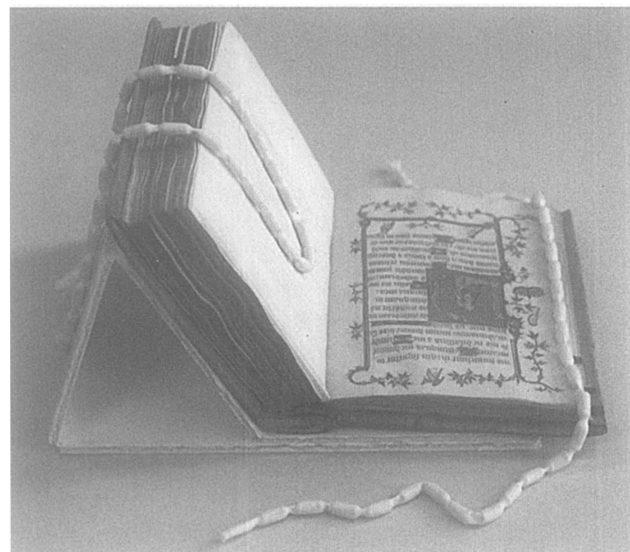

Fig. 1.
