The Book and Paper Group Annual is a non-juried publication. Papers presented at the specialty group session of the annual meeting are selected by committee based on abstracts. After presentation authors have the opportunity to revise their papers before submitting them for publication in the Annual; there is no further selection review of these papers. Independent submissions are published at the discretion of the Book and Paper Group Publications Committee. Authors are responsible for the content and accuracy of their submissions and for the methods and/or materials they present. Publication in the Annual does not constitute official statements or endorsement by the Book and Paper Group or by the American Institute for Conservation.
