Note: Discard 1986 list of categories.
Each major category is identified by a specific number to facilitate indexing and cross-referencing.

Each treatment category (13 - 31) is broken down into six subheadings: Purpose, Factors to Consider, Materials and Equipment, Treatment Variations, Bibliography and Special Considerations. Each of these subheadings can be further outlined as shown for 1.4 below, i.e. with treatment variations numbered 1.4.1, 1.4.2, 1.4.3, etc.

1. Major Treatment Category
   Definition:

   1.1. Purpose

   1.2. Factors to Consider

   1.3. Materials and Equipment

   1.4. Treatment Variations
       1.4.1.
       1.4.2.

Bibliography can be annotated to the extent that the subject dictates.

Special considerations can take many forms. It may include extended essays relating to the material in the preceding outline. It can offer a critical review of the existing literature. It can evolve into a dialogue between conservators with complementary or dissenting viewpoints.

Special considerations material is segregated from the broader body of outlined information in an effort to keep the outline simple enough for easy reference.
Participation is encouraged both for the outlines below and for those which have not yet been begun.
