**NINTH EDITION**

**May 1994**

Preparation of this edition is made possible in part by a grant from the Division of Preservation and Access at the National Endowment for the Humanities, an independent federal agency. The PAPER CONSERVATION CATALOG is a publication of the Book and Paper Group of the American Institute for Conservation of Historic and Artistic Works.

Ninth Edition copyright 1994. The Book and Paper Group of the American Institute for the Conservation of Historic and Artistic Works. 1. Fiber Identification (Draft); 5. Written Documentation; 12. Mold/Fungi. 18. Parchment Treatments. 30. Inpainting.

Eighth Edition copyright 1992. The Book and Paper Group of the American Institute for the Conservation of Historic and Artistic Works. 13. Foxing; 14. Surface Cleaning; and 15. Hinge, Tape and Adhesive Removal.

Seventh Edition copyright 1990. The Book and Paper Group of the American Institute for Conservation of Historic and Artistic Works. 4. Support Problems; 10. Spot Tests; and 16. Washing.

Sixth Edition copyright 1989. The Book and Paper Group of the American Institute for Conservation of Historic and Artistic Works. 19. Bleaching and 46. Adhesives.

Fifth Edition copyright 1988. The Book and Paper Group of the American Institute for Conservation of Historic and Artistic Works. 17. Sizing/Resizing; 23. Consolidation/Fixing/Facing; 29. Lining; and 40. Matting and Framing.

Fourth Edition copyright 1987. The Book and Paper Group of the American Institute for Conservation of Historic and Artistic Works. 26. Filling of Losses.

Third Edition copyright 1986. The Book and Paper Group of the American Institute for Conservation of Historic and Artistic Works. 6. Visual Examination; 20. Alkalization and Neutralization (1986, Bibliography, Special Considerations).

Second Edition copyright 1985. The Book and Paper Group of the American Institute for Conservation of Historic and Artistic Works. 3. Media Problems; 20. Alkalization and Neutralization; and 24. Backing Removal.

First Edition copyright 1984. The Book and Paper Group of the American Institute for Conservation of Historic and Artistic Works. 22. Humidification (1984, Draft); 25. Mending; and 28. Drying and Flattening.

Back editions of the PAPER CONSERVATION CATALOG may be purchased from the American Institute of Historic and Artistic Works, 1717 K Street, NW, Suite 301, Washington, DC 20006 for \$8.00 each edition plus postage.

## PAPER CONSERVATION CATALOG STATEMENT OF PURPOSE

(Revised 1994)

The purpose of this project is to compile a catalog of conservation treatments for art and historic artifacts on paper. The intention is to record a variety of treatment procedures in current use or with a history of use. It is not intended to establish definitive procedures nor provide step-by-step recipes for the untrained. An attempt will be made to include a variety of techniques used by AIC Book and Paper Group members and divergent opinions about particular techniques. Also included are chapters devoted to important related topics such as examination, documentation, housing, and display. The catalog is designed for practicing paper conservators and is intended as an aid in the decision-making process. It is understood that the individual conservator is solely responsible for determining the necessity, safety and adequacy of a treatment for a particular object and must understand the effect of his or her treatment. Inclusion in the catalog does not constitute an endorsement or approval of the procedure described.

The catalog is distributed to BPG members in a loose leaf format to permit additions, revisions, and updates. The project is a collective volunteer effort of the BPG, with members compiling catalog chapters and making long or short contributions to these chapters. The Editorial Board in Washington, D.C. meets regularly to review chapter drafts. A list of topics and a standard outline format have been developed. Treatment chapters are divided into six sections: Purpose, Factors to Consider, Materials and Equipment, Treatment Variations, Bibliography, and Special Considerations.

The 1984 pilot committee drafted three prototype chapters in the standard format to serve as examples. From 1985 to 1994, twenty-two additional chapters were completed. Conservators who know of or use other variants to outlined treatments are asked to contribute information to be added to existing texts in future printings. Individual conservators are also needed on an ongoing basis to compile and contribute to new treatment topics. The format is intended to be simple and flexible enough to encourage paper conservators to contribute any specialized technique or innovation, however broad or narrow in its application.

The catalog itself can be thought of as a goal but the process of writing chapters offers unlimited opportunities to exchange large and small amounts of information with our associates. The quality of this information should be similar to that learned while visiting or working with a colleague and discussing specific aspects of our work.

The BPG membership has always expressed interest in exchanging information, particularly the specific techniques and insights gained through practical experience. Until the development of the Paper Conservation Catalog, there has never been a convenient format available. It is hoped that the Paper Conservation Catalog will continue to be a useful, attractive, vehicle while also performing the necessary professional task of recording our body of knowledge.

It is intended that catalog editions be integrated with each other. A new table of contents has been printed to aid in assembly. Copyright information is included on the inside cover of this edition and should be retained.

Please contact the Project Director with any questions relating to the catalog. (See AIC directory for address/telephone number.)

## PAPER CONSERVATION CATALOG CHAPTERS

(Revised 1994)

Following is the list of chapters showing the status of the Catalog at the completion of the second three-year grant from the National Endowment for the Humanities. This list, originally drafted during the 1984 pilot project, has been periodically revised by the Editorial Board to reflect the needs and interests of the Book and Paper Group membership as the profession has evolved. Some topics have been added while others, thought to be redundant or otherwise unnecessary, have been deleted (gaps in numbering reflect these revisions, as well as the intention to leave room for adding new treatment topics). Topics such as enzyme treatments and suction table treatments are considered to be core chapters and remain as an incentive to future efforts. Another group of topics, numbers 42-45, relate to the broader field of collections management and preventive care and have been addressed to some extent in existing publications. While these topics are enormous, as they pertain to all conservation specialities, they may be addressed within the catalog at a future time.

PAPER CONSERVATION CATALOG  
FORMAT  
(Reprinted 1994)

Each major topic (chapter) is identified by a specific number to facilitate indexing and cross-referencing.

Each treatment chapter (12-31) is broken down into six subheadings: Purpose, Factors to Consider, Materials and Equipment, Treatment Variations, Bibliography, and Special Considerations. Each of these subheadings can be further outlined, as shown below for 1.4 Treatment Variations:

**1. Major Treatment Topic**

Definition:

**1.1 Purpose**

**1.2 Factors to Consider**

**1.3 Materials and Equipment**

**1.4 Treatment Variations**

    1.4.1

    1.4.2

        A.

        B.

            1.

            2.

                a.

                b. (etc.)

**1.5 Bibliography**

**1.6 Special Considerations**

The Bibliography can be annotated to the extent that the subject dictates.

Special Considerations can take many forms. It may include extended essays relating to the material in the preceding chapter. It can offer a critical review of the existing literature or can evolve into a dialogue between conservators with complementary or dissenting viewpoints. Special Considerations material is segregated from the body of the outlined information to keep the chapter simple enough for easy reference.

## PAPER CONSERVATION CATALOG PARTICIPANTS

May 1994

Participation is encouraged both for the chapters below and for those which have not yet been begun. Please review this list and update your interest by contacting the Project Director.

Editorial Board Liaison: Editorial Board contact for a specific chapter. Answers questions consults with committee, communicates suggestions, etc.

Compiler: Either outlines a specific category, fleshing it out in considerable detail, or outlines and develops a major topic within a specific chapter.

Contributor: Contributes to discrete areas within a specific chapter. Contribution can range from a sentence to an essay.

Available for Consultation: Interest in contributing to a specific chapter.

\* 1. Fiber Identification (Draft)

Editorial Board Liaison: C. Maynor

Compiler: D. Mayer

Available for Consultation: K. Carey

It is intended that catalog editions be integrated with each other. A new table of contents will be printed each year to aid in assembly. Copyright information will be included on the inside cover of all printings and should be retained.

Additional information is sought for and can be contributed to an existing outline at any time by contacting the compiler or a member of the Editorial Board. Miscellaneous brief contributions will be printed and added to the end of existing outlines until sufficient changes and additions have been made to warrant incorporating this information into the body of the outline and reprinting it.

Please contact the Project Director, Board members, or compilers with your questions, contributions, or interests in working on the catalog. (See AIC directory for addresses/telephone numbers.)
